

1. EpicCare Link URL: <https://carelink.health-partners.org/>

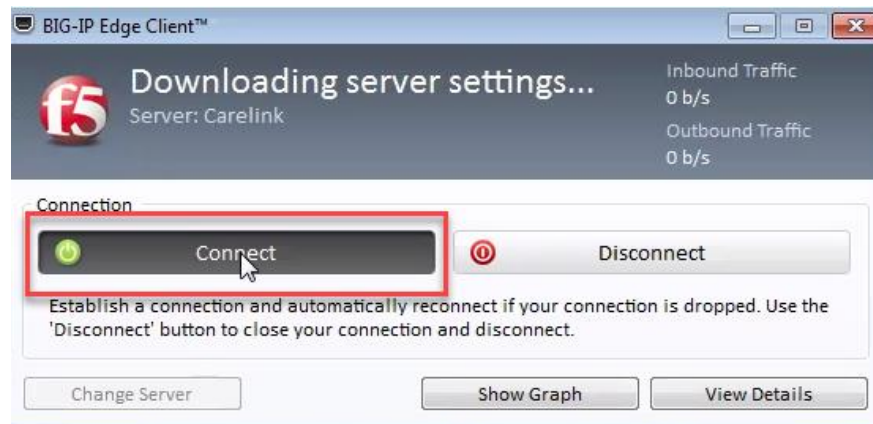

2. PACS images are available in EpicCare Link. Follow these steps to access the images:
 - a. Download, run, and install the Windows Client Access from the landing page.

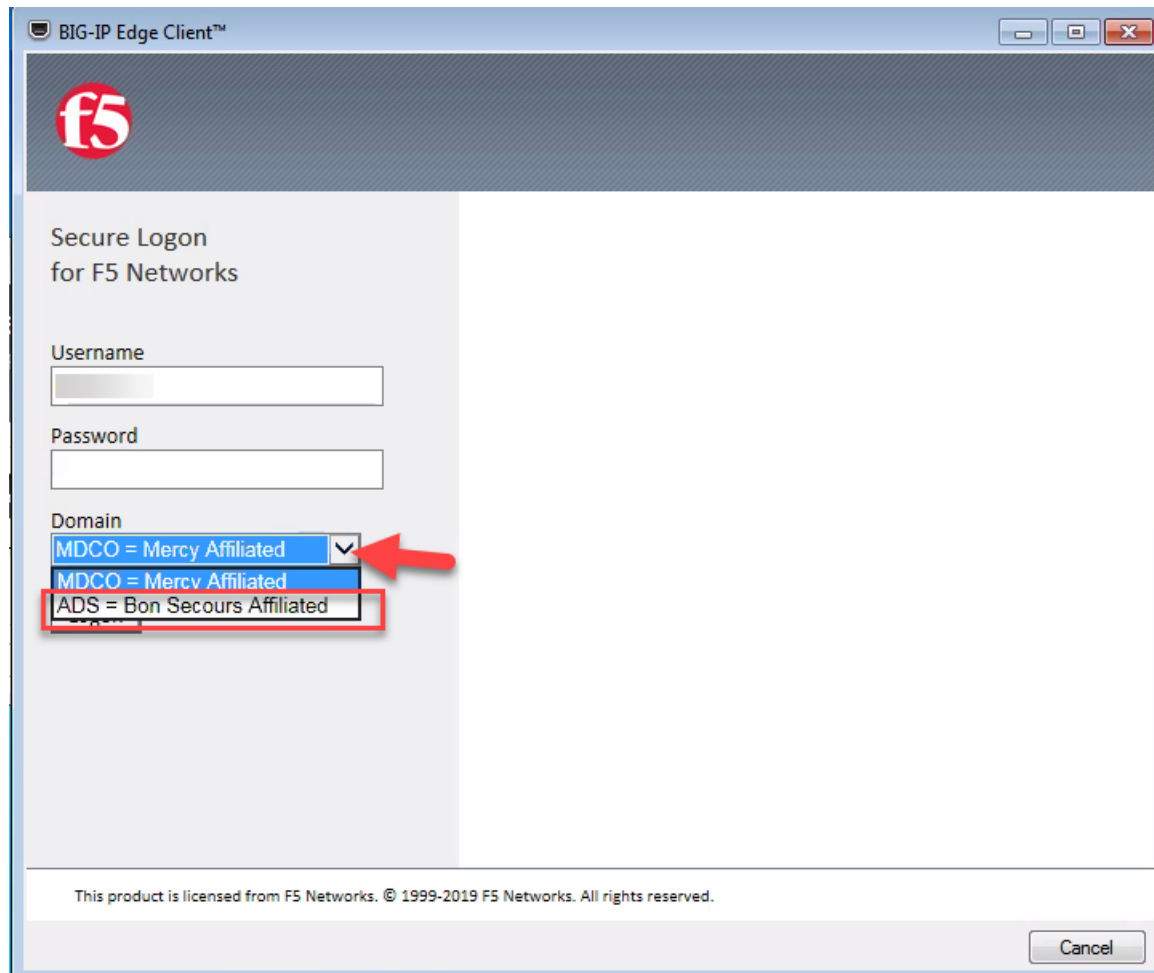

- b. From your Windows Start, search and open the Big-IP Edge Client
- c. Connect to the F5 using your credential.

- d. Click on Change Server
 - i. Enter: EpicCareLink.health-partners.org
 - ii. Save or Accept
- e. Select correct Domain for the region you are located in.
 - i. For Ohio most user will select MDCO.
 - ii. For Virginia/South Carolina most users will select ADS.

- f. Once you are connected, it redirects to EpicCare Link Home page. Copy the EpicCare Link URL and paste into Edge browser. PACS is only compatible with IE or Edge. Log in ECLink with your credential.
 - i. Will need to go to compatibility mode in Edge and allow IE.
 - ii. Will also need to go to settings and add the IE button.
- g. If you click the PACS hyperlink in Chart Review, Change HealthCare will prompt to download the station to view images. Select the second option to download Radiology Station Lite version.
- h. If you are not prompted, please use this link for the Change Healthcare download page: <http://vadcpacs.health-partners.org/hmi>

Mercy Health - Southwest Ohio - MDCOAP105235

Change Healthcare Radiology Solutions

Change Healthcare Radiology Solutions enables hospitals and clinics to acquire, distribute and archive medical images and diagnostic reports across the enterprise.

Log in with Radiology Station	This viewer includes the complete toolset for clinical reporting of PACS studies.
Log in with Radiology Station Lite	A lighter, faster version of the viewer for non-reporting use. Not sure? View available features.
Log in without Radiology Station	Includes PACS administration and other PACS-related applications.
